Best Colors For Bathroom

Top tips for bathroom paint colors:

- **Sophisticated neutrals** are always a great choice. Favorites include Chantilly Lace OC-65 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2121-70/chantilly-lace?color=2121-70>), Simply White OC-117 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/oc-117/simply-white?color=OC-117>), and Ballet White OC-9 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/oc-9/ballet-white?color=OC-9>).
- **Soft pinks and blush hues** such as First Light 2102-70 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2102-70/first-light?color=2102-70>), the 2020 Color of the Year (<https://www.benjaminmoore.com/en-us/color-overview/color-palettes/color-of-the-year-trends-2020>), Cream Puff 2174-70 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2174-70/cream-puff?color=2174-70>) and Foggy Morning 2106-70 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2106-70/foggy-morning?color=2106-70>) are popular alternatives to off-whites.
- **Greens** can be incredibly soothing in a bathroom, but some can create an unflattering cast if the color is too strong.
- **Yellows:** While a soft yellow complements many types of marble, wood and tile, some yellows may be too saturated or vibrant for a small bathroom space.

Always test your color options as lighting impacts how paint color reads: Pick up your select paint color sample from your local Benjamin Moore retailer (<https://www.benjaminmoore.com/en-us/store-locator>)!

Master Bathroom Color Idea: Serenity

Your master bathroom is your most personal space and an area where 'me time' takes top priority. Create a spa-like space with a soothing paint color that nurtures rest and relaxation. Consider calming hues, from the balancing gray of Metropolitan AF-690 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/af-690/metropolitan>), our Color of the Year 2019, to soft pastels like Palladian Blue HC-144

(<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/hc-144/palladian-blue>) and Italian Ice Green 2035-70 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2035-70/italian-ice-green>).

For visual flow, be sure to choose paint colors that share the same cool or warm undertone as the walls in the adjoining room to your bathroom.

Little Bathroom, Big Look

A modestly sized space always offers an invitation to play with color, and small bathrooms are no different. Saturated colors pop in small places, as seen here with Old Claret 2083-30 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2083-30/old-claret?color=2083-30>). The combination of deeper, rich colors (<https://www.benjaminmoore.com/en-us/color-overview/color-palettes/delve-into-deeps>) and the right lighting conditions can bring a lot of ambience to a small space.

Have fun: Try painting the ceiling an unexpected color such as Fruit Shake 2088-60 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2088-60/fruit-shake?color=2088-60>) or Windmill Wings 2067-60 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2067-60/windmill-wings?color=2067-60>). Or paint inset towel shelving or other bathroom accents with Black Ink 2127-20 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2127-20/black-ink?color=2127-20>) or Deep Space 2125-20 (<https://www.benjaminmoore.com/en-us/color-overview/find-your-color/color/2125-20/deep-space?color=2125-20>); these dark hues make a striking contrast against white or off-white tile and walls.

i

The Soft, Fresh Feeling of Matte Walls

Good news! A gloss or semi-gloss paint finish isn't your only option when it comes to avoiding the unsightly effects of bathroom humidity. The matte finish of Aura® Bath & Spa (<https://www.benjaminmoore.com/en-us/interior-exterior-paints-stains/product-catalog/abs/aura-bath-and-spa-paint>) also provides exceptional durability, color retention and mildew resistance in high-humidity environments. A matte finish delivers a sense of softness to bathrooms where hard surfaces like tile, mirrors, and metal fixtures abound.

Committed to higher sheens in the bathroom? Keep in mind that a paint with a higher finish or sheen may create an overabundance of shine, especially when combined with typical bathroom surfaces.

Find the Perfect Color for Your Bathroom

Let us help you find the perfect color combination to update and personalize your bathroom.
