

Services

Our process is simple,
providing complete solutions
to our clients --- from
concept to completion.

LBJ Interior Solutions is a New Jersey-based company established in 2015. We are a WBE and SBE certified contract furniture and flooring dealership providing services to both private and public sectors.

Our core team has more than forty years of combined experience with diverse backgrounds, which allows us to provide fresh new ideas creating innovative workspaces. Most importantly, we love what we do, we have fun every day, and it shows in our work!

Budgeting

Budgeting is a key component of every single project. We partner with you to come up with a budget that works for what you want done and how much you want to spend. And then we stick to that budget. We make sure that you get beautiful, efficient, and functional workspaces that fit your style and your wallet.

Specification

Design & Layout

Budgeting is a critical component of every single project. We partner with you to develop a budget that works for you and how much you want to spend. We make sure that you get beautiful, efficient, and functional workspaces that fit your style while maintaining fiscal responsibility.

Project Management

We believe in completing tasks on time. We schedule down to the last detail and we ensure that we meet our client's operational dates for every project we undertake. Our scheduling process starts on a simple premise — every project is unique. There are no "me-too" projects in our book. Therefore, every project requires competent scheduling.

Each project is unique. We develop customized critical path schedules that show you exactly what will happen, when, and how. They clearly show the sequence of events, time allotments and necessary milestone dates for an on-time occupancy.

Delivery & Installation

We communicate, schedule, and execute the entire delivery and installation sequence for your project, giving you peace of mind and a single point of contact for your project. Our experienced installation teams work with your team to ensure that all items are delivered and installed efficiently, safely, and on time.

Warehousing

Reconfiguration. Relocation. Liquidation.

Sometimes, "Out with the old and in with the new" is not the best way forward. That's where our Reconfiguration services come into play. We use your existing assets to create improved and refreshed workspaces. We recommend any additional updates that we feel will make your workspace incrementally more efficient and effective. Just like people, organizations often move from one location to another. LBJ offers complete relocation services.

Warranty Claims & Day-2 Maintenance

Our commitment to you doesn't end when the project is over. It's just the beginning of our relationship. We are your one point of contact with regards to your warranty claims, should there be any. We offer everything from cleaning services to creating a standards program for all your locations.

Our Liquidation services include assessing and selling your furniture/assets. There are times when an organization may expand, downsize or restructure. Our Warehousing services enable us to store underutilized furniture/assets and redistributed them later as needed.
