

# Our Secret Sauce

What gives Xceediant that Xtra edge? Well, we can't give you the recipe to our secret sauce.

But we can give you three points to consider:

## Perfect fit

We are very skilled at matching the perfect security solution/product with the best client. When we make the match, it's a perfect fit. (We are tempted here to use "It's a match made in Heaven, but we won't.)

## Start-to-finish

We stay with you from start to finish. Whether our clients are running a marathon or a hundred-meter sprint, we are there from the starting point to the finish line.

## Industry Expertise

Our relationships in the VC community in both the US and Israel, allow us to find absolutely spot-on solutions to the most disruptive cybersecurity threats in the marketplace.
